

however, to form any conclusion as to its abundance. This island is, I believe, the most southern station for *I. Hookeri* yet reported from the Maine coast.—ELSIE L. SHAW, Lexington, Massachusetts.

SOME MAINE ADDENDA.

J. C. PARLIN.

ON July 7, 1906, I found a few plants of a small, hoary crucifer, growing in association with *Sisymbrium altissimum* L., along a side track, in Canton, Maine, where grain cars are switched off. I laid it aside in my yearly budget for Prof. Fernald, who finds it to be *Erysimum parviflorum* Nutt., a vagrant from the Northwest. Both species named probably were brought in grain.

August 11, 1906, a quantity of *Eragrostis capillaris* Nees, was found growing along the edge of the sidewalk on Point Avenue in Canton Village. Again, on the 16th, I found a large quantity of it near the Gilbertville station in this town. This is the most northern known station of the species, although it was previously known in the state, having been collected at North Berwick several years ago.

While the following are not addenda, they serve to indicate the richness of the flora in this section of the state:—*Anemone cylindrica* Gray; *Caulophyllum thalictroides* Michx.; *Dentaria diphylla* L. *Arabis Drummondii* Gray; *Viola arenaria* DC.; *Arabis quinquefolia* Descne. & Planch.; *Echinacea pallida* Nutt.; *Antennaria Parlinii* Fernald; *A. occidentalis* Greene; *A. Canadensis* Greene, staminate plants; *Petasites palmata*, Gray; *Vaccinium vacillans* Sol.; *Polygonum Hartwrightii* Gray; *Juniperus Virginiana* L.; *Listera convallarioides* Nutt.; *Spiranthes Romanzoffiana* Cham.; *Orchis spectabilis* L.; *Habenaria bracteata* R. Br.; *Cypripedium parviflorum* Salisb.; *C. spectabile* Swartz.; *Scirpus hudsonianus* Fernald; *Carex Pseudo-cyperus* L.; *C. prasina* Wahl.; *C. paupercula* Michx., var. *irrigua* Fernald; *C. virescens* Muhl., var. *Swanii*, Fernald; *C. longirostris*, Torr.; *C. plantaginea* Lam.; *C. deflexa* Hornem.; *C. novae-angliae* Schw.; *C. arcta* Boott; *C. cephaloides* Dewey; *C. foenea* Willd., var. *perplexa* Bailey; *C. leporina* L.; *Phragmites communis* Trin.; *Poa alsodes* Gray.

CANTON, MAINE.
